Freestanding

Niagara FS 55

Niagara FS 55 is a professional free-standing dispenser designed for the Horeca channel, ideal for small restaurants and cafes. It allows single or simultaneous dispensing of water at room temperature and cold, still or sparkling.

Features:

Type of dispensed beverage:

 Water

Number of ways/lines:

 from 1 to 2

Number of people:

 50-60

Types of water:

 Ambient  Natural cold  Sparkling cold

Finish:

 Skin-plate  Stainless Steel

 Self Service

Strengths

Performance

- Niagara FS 55 can dispense up to 55 liters per hour of cold, still and sparkling water, or at room temperature, with a capacity of 12 L/h in continuous service
- The ice bank with double coil in the ACWG versions makes the simultaneous dispensing of cold and sparkling water faster and more efficient

Convenience

- The version with electronic control allows you to pre-set certain machine functions, such as the automatic water dispensing volume or the ice bank temperature
- This enables real-time monitoring of operation and helps optimize energy consumption

Hygiene & Safety

- The protected internal taps guarantee greater hygiene, reducing the risk of contamination
- The integrated safety valve prevents any water leakage due to internal faults, ensuring safe operation in all conditions

Advanced Features

- Niagara FS 55 supports the application of dechlorinator and purifier filters to improve the taste and odor of water

Design & User Experience

- Thanks to the stainless steel external bodywork, the design of the Niagara FS 55 is robust and solid
- The machine houses both the constituent parts of the dispenser and the accessories inside, favoring a clean and tidy external aesthetic
- The design of the drip tray facilitates optimal positioning of the carafe
- Touchless version also available

Label & Certification

- Niagara FS 55 is ACS and WRAS certified
- The dispenser is tested and engineered in the Celli testing laboratories and complies with the technical regulations for a wide range of countries: EU, UK, APAC

Connectable System

Strengths

Performance

- Niagara Evo Smart can dispense up to 120 liters per hour of cold water, still and sparkling, or water at room temperature, with a capacity of 80L/h in continuous service
- The ice bank with double coil in the ACWG versions makes the simultaneous dispensing of cold and sparkling water faster and more efficient
- Possibility to set the dose in four sizes for each type of water

Serviceability

- The interactive display supports installation and maintenance with intuitive wizards

Design & User Experience

- The design of the Niagara Evo Smart is elegant and minimal, equipped with a 10" touch screen for maximum interactivity
- The user interface offers 100% touchless dispensing of the drink and complete customization of the drinking experience
- The internal components and accessories are housed inside, promoting a clean and tidy aesthetic

Advanced Features

- Supports cashless payment via QR code or NFC

Convenience

- Thanks to IoT technology, real-time remote monitoring of the dispenser is enabled, providing information on the status of the system and dispensing data to facilitate maintenance and control of consumption

Hygiene & Safety

- The protected internal taps guarantee greater hygiene, reducing the risk of contamination
- The integrated safety valve prevents any water leakage due to internal faults, ensuring safe operation in all conditions

Label & Certification

- Niagara Evo Smart is tested and engineered in the Celli testing laboratories and complies with the technical regulations for a wide range of countries: EU, UK, APAC
